No. 2

High Schools Represented in the Student Body.

From records in the President's office Miss Ackley has recently compiled a list of high-schools represented in the student body and the number of students attending from each.

The results are as follows: New Haven High leads with nine students enrolled closely followed by Hartford High with eight, Crosby High of Waterbury, seven and Danbury High with six. Bacon Academy of Colchester, Norwich Free and New Britain High each have five. Ansonia, Bristol, English High of Worcester, South Manchester and Windham are represented with four each. Those high schools with three men on the hill are Naugatuck, C. L. I., Bulkley of New London, Plainfield, and Portland. Norwalk, Stonington and the Wheeler School of North Stonington, Meriden, Middletown, Lewis High of Southington, and Stratford have two to their credit. Those institutions represented by but one man are Erasmus High of Brooklyn, Stuyvesant, Irving of Torrington, New Rochelle, Seymour, Windsor, Wallingford, Gilbert High of Winsted, Collinsville, Mechanic Arts of Boston, Mills, Mass., Ware, Mass., Springfield Tech., Holyoke, Lawrence, Providence English, Richmond Hill, Port Jefferson, Riverdale, N. Y., Paterson, N. J., Deep River, Glastonbury, Bridgeport, Enfield, Bethel, Worcester Commerce, Deerfield, Mass., Orange, Mass., Granby, Mass., Revere, Mass., Westfield, Mass., Lakeview of Chicago, Boys' High of Brooklyn, Morristown of N. J., Battim of Elizabeth, N. J., Thomaston, Staples High of Westport, Farmington, Stamford, Hingham, Mass., North High of Worcester, Worcester South High, Boston English, Lynn English and Durfee High of Fall River.

Other institutions of higher learning represented by the students at Connecticut are Rhode Island State, Iowa State, Mt. Hermon, Vermont Academy, Cushing Academy, Columbia University, Worcester Tech., Trinity College, Mass. Aggies, Yale, and Ohio Northern.

Movies.

There is a great likelihood that moving pictures here at the college will be a reality before long. President Beach has practically made up his mind to purchase a machine to be used both for entertainment and instruction. No doubt the utility of the machine for instruction will be restricted to the classroom, and that the course of exhibitions in the armory will consist of pictures of a highly amusing yet refined character.

As yet no definite plan has been made as to how often these entertainments will be held or when they will begin, but it is thought that two moving-picture shows will be held each week at least by December and that the price for admission will not exceed that of theatres elsewhere that exhibit the same class of films.

Announcement To Subscribers.

If you are receiving this publication and have not paid your subscription for the year 1915-16 the paper will not be mailed to you after November 15.

The paper is sent as an exchange to High Schools and Colleges and will be continued throughout the year.

To newspapers the "Campus" is complimentary. Address all letters relative to subscriptions, failure to receive copies, etc., to

ALBERT A. BUELL,
Circulation Manager.

Football Hop Nov. 13th.

The committee on decorating for the Football Hop has already begun its work by outlining the scheme which they intend to follow in preparing the Armory for the dance.

The work is to be done by the members of the committee as far as possible. The general color scheme is to be blue and white on a green background, which is to be composed of junipers, ground pine, and mountain laurel. These are to be faced with blue and white streamers and autumn leaves. The rostrum is to be decorated with sheaves of cornstalks, pumpkins, and other seasonable incidentals.

As at the Junior Prom. last year the orchestra is to hold forth on an elevated platform in the center of the floor, and the musicians are to be concealed from view as far as possible by palms and ferns.

The committee has been sub-divided and one of those divisions is in charge of preparing and setting up the boxes. The boxes are all to be washed and touched up with paint where needed.

It is the purpose of the committee to conceal as much of the gymnasium equipment as possible, and to remove the unattached apparatus. One unsightly feature of the gymnasium at present is the unfinished ends of the running track. The committee intends to span these ends with a few planks and to drape the planks with evergreens and streamers.

The committee in charge consists of E. B. Lyons, Chairman; N. Cohen, J. W. Gillis, W. B. Smith, W. Brundage, D. Wiepert, T. H. Beich, E. J. Bailey, E. W. Crampton, and J. R. Davison.

Football.

The Connecticut Aggies put up a hard fight against the strong Worcester Polytechnic team at Worcester on September 25, and held them to a 7-0 score. It was not until the last five minutes of play that the Tech. team, outweighing our men by twenty pounds to the man, blocked Hopwood's punt and by a series of line plunges carried the ball across. Ryan at end starred throughout the entire game, Harris deserves credit for his punting, and Hale at guard put up a fine game for a new man.

The eleven journeyed to Hoboken October 2, to stack up against Stevens Institute. The score was 14-3 in favor of the Jerseyites who outweighed and outplayed our men throughout the game. Hopwood, who kicked our field goal, and Clark were the stars for us.

On October 9, New Hampshire State defeated what the Granite State College paper calls its "old rival, Connecticut Aggies" to the tune of 18-0. The game was lost through unfortunate fumbles and the failure 'o deal with the forward passes of the other side in the proper manner.

The arrival of Mr. John H. Donahue last week to assist in coaching the men greatly increased the spirit of the players. Donahue is a former Holy Cross and Boston College player and has had several years' experience in coaching around Boston. Last year he coached the Boston College team which had a very successful season. He comes well recommended and his work with the squad the past week proves him to be very competent.

The Connecticut Aggies team ventured a little outside of their class in tackling the Fordham University team at New York on the 16th. The game was played hard but was marked by few spectacular plays or serious injuries. The score was 35-0 in favor of the New York team who far outclassed our men in weight, speed, and knowledge of the game. Crowley, James and Renahan starred.

The resumption of athletic relations with Rhode Island State after a period of five years is very enthusiastically welcomed by the students and faculty. It has been announced that a game of football will be played with our neighboring institution on October 23 on Storrs Field. This means the postponement of the Fort Wright game to a later date. Basketball and baseball games will be arranged with the Rhode Island management, one game to be played at each place. It seems quite fitting that these two colleges, which are about the same numerically should meet in this way and the keen feeling of rivalry should be of the most helpful variety and beneficial to both institutions.

The second team, under the leadership of Barney McDonald, has been more successful than the first team in its games up to date. They defeated

(Continued on page 2.)

Alumni Attention.

It will be the policy of the *Campus*, so far as is practical, to print the Alumni Notes by classes. For this reason all are requested to send notes and notices for publication to Walter T. Clark, Alumni Editor, who will classify them for printing. An Alumni Department is never successful unless all cooperate to make it so. If each and every one of the Alumni will do his best this feature of the *Campus* will be a success.

Alumni Notes.

A. N. MacQuivey, '09, who is engaged in business for himself in Wendall, Idaho, was a recent visitor at the college.

W. W. James, '99, is an assistant engineer in the Valuation Department of the Central Railroad Company of New Jersey.

Miss Dora House, ex'16, is at the New York Post Graduate Medical School and Hospital.

J. H. Gamble, '09, is with the Bureau of Animal Industry of the United States Department of Agriculture.

Wesley O. Hollister, '09, is still with the Davy Tree Expert Co., of Kent, Ohio. He now has charge of their publication work in addition to being assistant manager, a director of the Company and secretary of the Davy Institute of Tree Surgery. Mr. and Mrs. Hollister were on the Hill last September.

Mr. and Mrs. John Busch of Millertown, N. Y., have announced the engagement of their daughter to A. B. Borgeson, ex'10.

C. P. Harper, '13, was married to Miss Mildred Atwood of Watertown, Conn., on October 7.

W. R. Pattee, '15s, is at work in West Newton, Mass.

C. W. Barnard, '08, and T. C. Waters, '08, were recent visitors at the college.

J. M. Bentley, ex'16s, has entered Tufts College as a freshman and is on the 'varsity' football squad.

E. J. Rasmussen, ex'17, has entered the University of California for a course in mining engineering.

Everett Hall, '10, has recently purchased a fruit farm in Newington, Conn.

W. T. Ackerman, '15, plans to move on his place at Rockville in a few weeks.

"Squab" Manning, ex'18, has entered the Sheffield Scientific School.

A. E. St. Germain, ex'18, has entered Brown University.

Miss Helen Bolan, '15, D. S., is instructor in Domestic Science in the Crosby High School of Waterbury.

Miss Dorothy Hemenway, '15, D. S., is chemist for the Bridgeport Pie Co. Miss Hemenway was the highest in rank in a field of thirty-two contestants.

Ernest R. Patchen, '15s, is testing in the western part of the state.

Martin L. Roser, '15s, is employed on the Hamlet Hill Farm at Westminster.

Charles E. Simmons, '15s, is testing in Windham County with his headquarters at Putnam.

George H. Peters, '14 and, his brother are joint owners of a large fruit-farm at La Habra, California.

Louis Reiner, '13, is instructor in Dairying at the Baron de Hirsch School of Agriculture in New Jersey.

J. Herbert Wood, '13, is the proprietor of a fruit and poultry farm at Twin Mountains, West Virginia.

"THE COLLEGE."

EDITORIAL.

In the absence of a regular coach and during that time when a football team needs the most attention and training Mr. Warner has appeared upon the athletic field night after night without fail, has attended the team on every trip and has done the utmost in his power to assist in the development of a strong eleven.

He has done this without solicitation and at a great personal sacrifice. There is no one else on the Hill, barring those on the squad, who has shown the spirit and interest that Mr. Warner has.

Such action does not go unrewarded at other institutions and should not here at Connecticut. It is up to the A. A. to see that Mr. Warner receives suitable recognition of the work he has done.

NOTICE! PICTURES! NOTICE!

Those who have any snapshots suitable for publication in the 1916 *Nutmeg* are asked to bring them to Case, 7 Storrs. Pictures of college events from the time of Junior week last spring up to the present are desired. Baseball games, football games, and pictures of college life in all of its phases will help to make this year's publication brighter, and it is hoped that those who have any ability at all in the photographic line will get busy and turn in a lot of material.

BEN GREET PLAYERS.

On October 13 the Ben Greet Players presented Shakespeare's comedy "Much Ado About Nothing" before a crowded house in the Hawley Armory.

This is the first time that the Ben Greet Players have appeared at the college and the audience was well pleased. The parts of Leonato, Dogberry, and Beatrice were especially well taken. A large number were present from the Normal School in Willimantic and the entertainment was a financial success.

The entertainment course outlined by the faculty committee includes the following: December 4, "Colby", car-

toonist of the Chicago *Daily News*; February 11, 1916, "The Marigold Quartet," composed of young ladies which has, throughout the summer, been playing to large audiences on the Chataqua circuit; March 18, 1916, Dr. Peter MacQueen, War Correspondent. This talk will be illustrated by colored slides made from photographs taken by the gentleman who has just returned from the front.

At least one extra entertainment will be scheduled, probably for the evening before the Football Hop. The course is arranged from the list offered by the Ridpath Lyceum Bureau whose talent entertains over four million people every season.

COLLEGE AGENTS.

For convenient reference the following list of college agents is published. Cut it out and paste it above your desk.

Candy—Wheeler, 8 Storrs.

FOOTBALL.

(Continued from page 1.)

N. F. A. at Storrs on October 6, by a score of 6-0. Harris starred in this game for the college.

On October 9, Windham High was defeated by a score of 12-0, in a rather exciting game. All the first team men and many substitutes were at New Hampshire and Cahil and McCarthy were, to the surprise of all, the men that put up the best fight.

The second team went to Munson October 14 and held the Academy team to a score of 14-14. The Munson backs showed splendid power in carrying the ball, but our team proved to be a little heavier and was fortunate in making some lucky breaks. Murdock's recovery of a fumble and his 50-yard run for a touchdown was one of the features of the contest. The second team still has two games on its schedule.

Dr. Chase has received a letter from the management of the Worcester team in which full responsibility for the charge of stolen signals which appeared in the *Worcester Telegram* was laid on the paper itself. Friendly relations between the institutions will not be disturbed and it is very probable that baseball games will be played in the spring and that the two teams will meet in football next fall.

Of the games remaining on the first team's schedule that with the Springfield Y. M. C. A. College seconds will prove the easiest. The game with Columbia University at New York on the 6th of November will be made the Mecca of all Alumni and friends of the college in and about New York. A large delegation will attend from the college to root for the Blue and White. The Football Hop coming on November 30 will follow the game with Boston College. This ought to prove an interesting contest and we hope will result differently than the last few contests with that institution have.

The Better Way.

A worthy acknowledgment of the better way to do dairy cleaning is found in the recognition given

by Dairy Colleges and Dairy Authorities.

Almost to the man, State Dairy Authorities and Inspectors advise the use of this special dairy cleaner.

The better way, made possible by the sanitary cleaning ingredients of Wyandotte Dairyman's Cleaner and Cleanser, meets the approval of 85 per cent. of all butter and cheesemakers. Hundreds of dairymen, milk dealers, and creamery patrons likewise approve of the better way for they, too, depend upon "Wyandotte" for their dairy cleanliness.

If you are not acquainted with the better way, why not ask your dealer or write your supply man for Wyandotte Dairyman's Cleaner and Cleanser. They will gladly supply you with the understanding that it will prove to be all that is claimed for it. Otherwise the trial will cost you nothing.

WHAT ARE THE SIX BEST NOVELS?

From the *New York Times* of
 September 19, 1915.

Believing that a discussion of a literary topic of the widest interest might be not without momentary relief to minds which have constantly before them the tragic spectacle of the world's greatest War, the *New York Times* recently asked a few of the most distinguished novelists of America and England to reply to this question:

"Which, in your opinion, are the six best novels in the English Language?"

The answers received have shown great diversity of opinion and indicate that the tastes of novelists is often at variance with that of the public for which they write. The letters have been printed in several installments and the opinions of their authors are here summarized.

Of the twenty-eight authors who replied to the request, a few were unwilling to commit themselves to any definite choice. Some of the others were careful to disclaim any wish to sit in judgment on the world's literature, and stated that all they could do would be to express their personal preference, to name their favorite authors. But personal preference is itself a judgment, and therefore such lists have been counted in the summary.

One result of this symposium is to establish beyond a doubt the fact of the popularity of "Vanity Fair" and "Tom Jones" among modern novelists; realist and romanticist united in praising these two books, and the result was that they received respectively fourteen and eleven votes. These are surprisingly large numbers when we consider that the next two books in order of popularity, "David Copperfield" and "The Scarlet Letter" received only seven votes apiece.

The jury of authors were unable to award sixth place to any one novel. It gave four votes to each of four utterly dissimilar novels "Ivanhoe", "Tristram Shandy", "Lorna Doone", and "Tess of the Ubervilles". Sir Walter Scott, Lawrence Sterne, R. D. Blackmore, and Thomas Hardy are authors seldom bracketed together in this manner.

Following is a list of the six best novels in the English language, according to twenty-eight American and English novelists: "Vanity Fair", by William Makepeace Thackeray; "Tom Jones", by Henry Fielding; "David Copperfield", by Charles Dickens; "The Scarlet Letter", by Nathaniel Hawthorne; "Robinson Crusoe", by Daniel Defoe; "Ivanhoe", by Sir Walter Scott; or "Lorna Doone", by R. D. Blackmore, or "Tess of the D'Urbervilles", by Thomas Hardy, or "Tristram Shandy", by Lawrence Sterne.

Guaranteed To Kill
 Every Scale
 It Reaches.
 What?

More Feed Per Acre

The cost of producing meat or milk would be much less if it required less acres to produce the feed. Both the *quantity* and *quality* of the feed improve when the right plant foods are used to supplement the manure and clover. They improve enough to yield a *handsome profit* on the expenditure. The right plant food includes enough

POTASH

in available form. Supplement the manure and phosphate with 50 to 100 pounds of Muriate of Potash, or 200 to 400 pounds of Kainit, per acre, and you will raise big corn and fine clover after the grain and at the same time improve the fertility of the soil. Try Potash salts alone on the swamp land pasture and note the clover and good grasses crowd out the wild hay. Write us for prices of Potash, one bag up.

RIFLE ASSOCIATION ELECTS OFFICERS.

The C. A. C. Rifle Association held its annual meeting, Wednesday evening, October 6, 1915, when the following officers were elected: President, C. E. Lee; Secretary, A. W. Miller; Treasurer, G. L. Prindle, Team Captain; R. Knight.

Plans were discussed for the coming year and much enthusiasm was shown over the prospects for the season.

A meeting of the executive committee was held after the regular meeting.

Matches are now being arranged with both militia and college rifle teams and a tournament with The New York Military Academy with a silver loving cup as the prize will be entered if the finances of the local club will allow.

Gallery practice will commence soon, as there are over five thousand rounds of ammunition left from last season.

Although Captain Knight is the only remaining member of last year's team it is expected that plenty of new material for a winning team will be found among both the old and new men.

DE LAVAL SEPARATORS

are by far the most Economical.

REAL ECONOMY is never short-sighted. It never confuses **PRICE** with **VALUE**.

PRICE is what you pay for an article.

VALUE depends upon the amount and quality of service the article gives you.

YOU GET by far the greatest actual value for your money when you buy a De Laval—**BECAUSE** a De Laval will give you much better and longer **SERVICE** than any other cream separator.

From the standpoint of its greater durability alone the De Laval is

the most economical cream separator to buy, and when you also take into consideration its cleaner skimming, easier running, greater capacity and less cost for repairs, the price of the "cheapest" machine on the market is most exorbitant compared with that of the De Laval.

AND there is no reason why you should let its **FIRST COST** stand in the way either, because the De Laval may be purchased on such liberal terms that it will actually pay for itself out of its own savings.

A De Laval Catalog, to be had for the asking, tells more fully why the De Laval is the most economical cream separator, or the nearest local De Laval agent will be glad to explain this and many other points of De Laval superiority. If you don't know the nearest local agent, simply write the nearest De Laval main office as below.

The De Laval Separator Company

International Harvester Oil Engines—Mogul—Titan

THE buying of the right engine for the farm is a family affair. Your wife, the boys, the girls, the help—everybody about the place will be helped so much by the engine that it pays to buy carefully. Get a good engine, a **Mogul** or **Titan**, give it all the jobs it will do and handle it properly, and it will still be shouldering the drudgery years from now.

Buy an **International Harvester** engine—**Mogul** or **Titan**. In time the family will come to look on it as a faithful ever-reliable friend. It will keep down your fuel and repair bills, deliver the most power with least trouble, and save you more hard work than you can realize now.

International Harvester engines are made in all approved styles, sizes from 1 to 50-horse power, operating on low as well as high-grade fuels. Some local dealer near you handles **Mogul** or **Titan** engines. If you don't know him, drop us a line. We'll send you full information, and make it easy for you to see the best farm engine made.
